Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-40 are rejected under 35 U.S.C. 102(b) as being anticipated by Bosacchi et al. (USPN 4,625,114).

Bosacchi discloses a method for nondestructively (con-contacting) determining the characteristics of a multilayer thin film structure that comprises receiving a signal that includes information germane to total reflectance of a wafer (col. 8, lines 3-60, claim 1, (a, b), claim 4), comparing the information to information in a database (col. 12, line 65- col. 13, line 8, claim 1 (e), claim 4), determining one or more characteristics of the wafer based on the comparing wherein the one or more characteristics are selected from a group consisting of thickness and surface characteristics (claim 1, 4). The database includes calculated, measured, spectral, calculated spectral, a variety of wafer

thicknesses, wafer surface characteristics (col. 9, lines 45-65; col. 12, lines 30-65). The signal is an optical signal that is captured by a photodetector (50, fig.4).
